

SMART TRANSFORMATIONS

IT'S TIME
TO GET
CREATIVE

ABOUT CWS

At Creative Wrap we have a passion for helping our clients realise their dream designs, whilst helping them avail huge cost savings compared to traditional refurbishment methods. Originally specialising in Kitchen Wrapping, Creative Wrap have now diversified into over twenty service offerings encompassing everything related to interior wrapping; to include hotel lobbies, apartments, office blocks, restaurants and more. We have quickly grown into the market leader of Interior Wrapping within the UAE, something that we attribute to our dedication to high standards, impeccable customer service and huge portfolio of quality materials

As a company owned and managed by British Nationals, Creative Wrap have consistently implemented management system frameworks across the entirety of the company that are ISO 9001 compliant. These systems, in combination with the fact that all our professional installers are trained to European Standards, has helped us ensure that each and every project is delivered on time; and to the high standard of quality expected by our esteemed clientele. Creative Wrap are also proud 3M Preferred Applicators for the well-known 3M Di-Noc Architectural Interior Film after being approached by 3M in mid-2019.

Authorised installer of

OUR SERVICES

Creative Wrap specialise in transforming any interior space in a matter of days, at a fraction of the price of the traditional refurbishment methods. Choose from wood, stone, marble, concrete, fabrics and more. No disruption to the environment; no smells, dust, debris or noise. Why replace, when you can upgrade?

Creative Wrap Architectural Interior Film offers high quality, self-adhesive laminate film applications in an extensive variety of finishes to cater for everything from simplistically modern, to outrageously artistic. With over 6000 finishes to choose from, even the most exuberant styles and designs can be brought into reality using our unique Smart Transformations. Our Architectural Interior Film has everything you need from a coating material; ease of application, malleability and a lasting quality finish. Further, the material is inherently robust, boasting high water, dirt, impact, wear, abrasion, mould, bacteria and scratch resistance. The ideal solution to transforming any interior space by combining design with practicality; the authentic appearance and texture of the real material, at a fraction

of the price. With removable options available, in a rented space you can reverse the changes and put the area back to its original state. Creative Wrap can transform walls, furniture, counters, tables, doors, partitions, ceilings, lifts, building cladding, wardrobes, cabinets, tiles, window frames and so much more.

The Problem and Our Solution

The problem is simple; tired, worn out interior space in need of renovation. The solution is our minimally intrusive, Creative Interior Film available in over 6000 finishes. Truly lifting the limitations on interior design.

The Process

Our trained professionals can install the material with minimal disruption; no smells, noise, dust or debris. This means no need to vacate your home or business whilst we transform your space. With our Smart Transformations we can transfer vast interior spaces in a matter of days whilst working around the day-to-day use of the area.

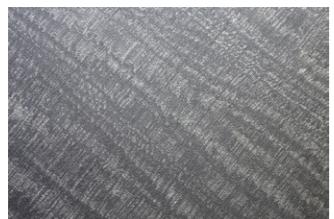

SAMPLE TEXTURES

With an expansive product offering we are sure we have a finish that suits your unique design. From the warmth of natural wood, to the soft touch of suede; we have it all. It's time to get Creative.

ADVANTAGES OF USING CREATIVE INTERIOR FILM

Fast Transformation

A fast solution to transforming any interior space.

No Noise

No use of heavy machinery and tools. Allows your business to continue, undisturbed.

Cost Efficient

Up to 70% cheaper than traditional renovation, for the same aesthetics.

Warranty

10 Years guarantee against delamination, cracking and yellowing.

Fire-Rated

Fire-Retardant materials available.

Certified

In compliance with European Standards.

No Down-Time

No loss of revenue for your business. A renovated room in the evening can be rented in the morning.

No Maintenance

Clean with eco-friendly materials. That's it! No more maintenance intensive materials.

KITCHENS

At Creative Wrap we aim to lift the limitations on kitchen design. Gone are the days of having to choose from a standard palette of colours provided by a kitchen supplier. If you can imagine it, we can create it. The full kitchen wrap includes kitchen cabinet door wrap, backsplash wrap, counter top wrap and flooring. Our Creative Interior Film is scratch, heat and bacteria resistant: ideal for any kitchen.

BATHROOMS

As our wrapping journey continued, we realised that there was a requirement for tile wrapping. By broadening our portfolio to incorporate this with our innovative “flat & wrap” method, we were able to accommodate those customers who wanted a different look, without the hassle and inconvenience of removing their bathroom tiles. We then started to assist in the transformation of hundreds of bathrooms. ‘Removing’ the old, dilapidated tiles that were originally there and transforming the room into something the client truly desired. Our specialties of wrapping kitchen cabinets, counter tops and backsplashes undoubtedly helped our diversification into a new service offering that benefited our clientele wanting to completely transform their bathroom; a simple yet brilliant evolution in the Creative Wrap timeline.

INTERIOR DOORS

Renovation to interior doors has, in the past, been limited to various methods of painting or replacing. The fumes created from these methods, especially spray painting, often cause the premises to be shut down whilst the renovation is carried out to avoid any harm to people nearby. With Creative Interior Film we can renovate a door without closing down the premises, meaning business stays open as usual, or helping to avoid the need to relocate your family to a hotel during the installation. Choose from our portfolio of over 6000 finishes and unlike paint, our material has no drying time, meaning that as soon as we are done, your door is ready for use.

WARDROBES

Built in wardrobes need no longer be the bane of your design. Whether you want to change your mahogany wardrobes to oak, white to black, stripes to spots; we can wrap any size or shape of wardrobe in as little as a few hours. Our Smart Transformations eliminates the requirement to remove your wardrobe, convert the wardrobe into something entirely different without actually replacing the physical components. Why replace when you can upgrade?

HOSPITALITY

Product quality is conveyed by technology, design and efficiency, all essential parameters in the hospitality industry. Our Creative Interior Film applications offer solutions for the hotels, bars and restaurant environments. Additionally, we have material which is flame retardant and anti-bacterial. All of our materials are easily cleaned with eco-friendly cleaners giving you peace of mind for your employees and customers health and safety. The key advantages of our applications are the simplicity and speed of implementation compared to traditional refurbishment techniques. The renovation can be carried out in situ, without the use of heavy equipment and consequent noise. This minimises any unnecessary disruption to day to day activity and in most circumstances can eliminate downtime. A room transformed in the day, can be rented out at night.

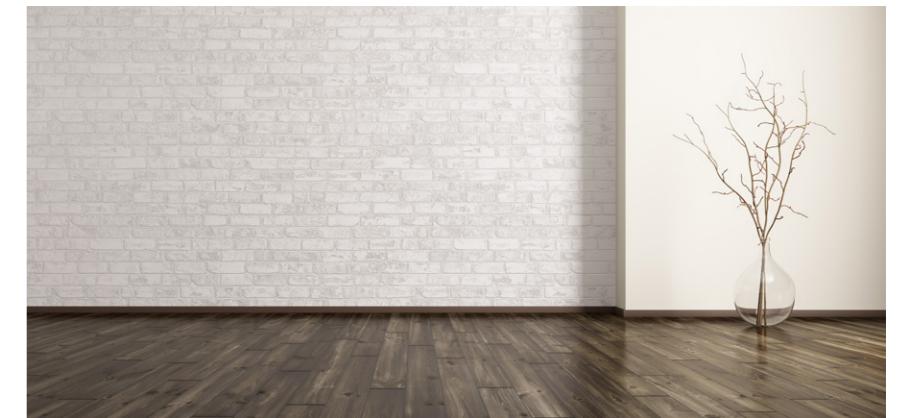

OFFICES

The world of the office is one of the largest markets looking for solutions to upgrade both the environment and space. Transforming partitions, glass walls, floors or furniture; our materials and applications offer quick and efficient refurbishment systems, with simple and economical post-installation maintenance. An actual second skin, with countless compositional options, easy to transport, install and remove.

WALLS

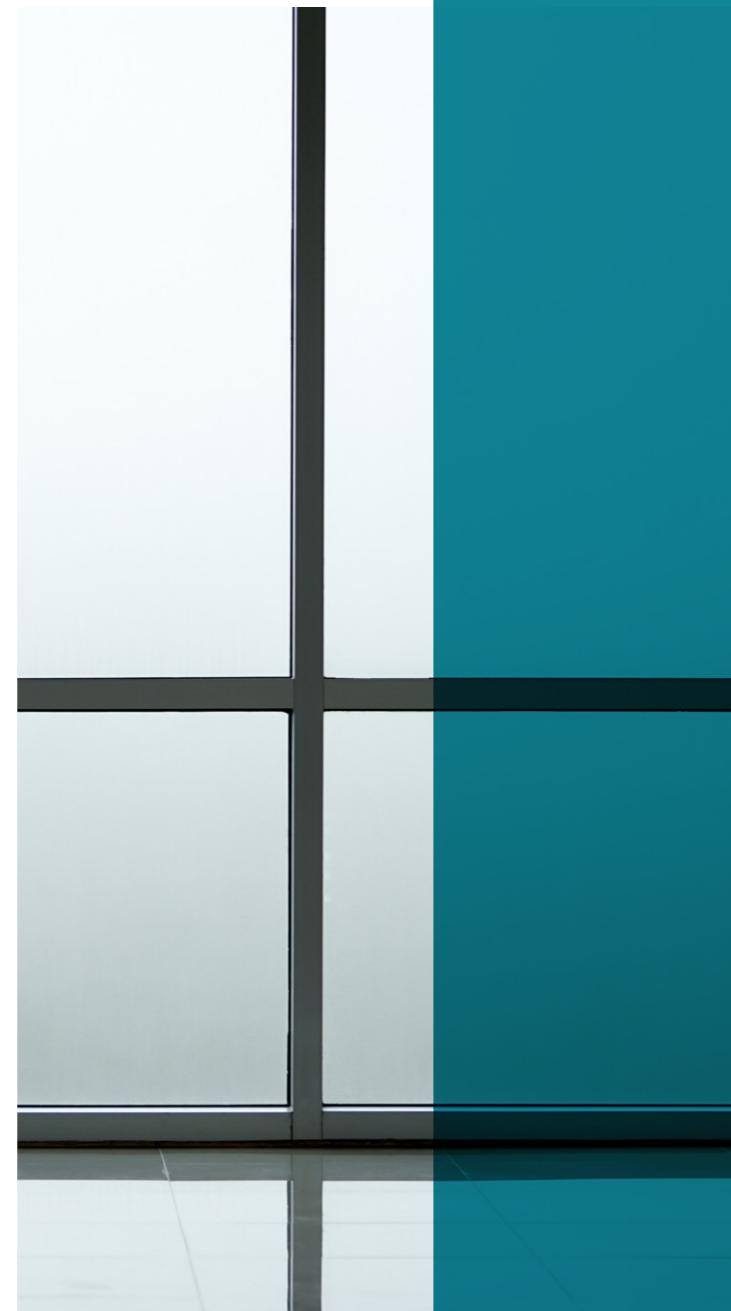

Throughout the world of interior design, walls can be considered as one of the most prominent features of any room. With Creative Architectural Interior Film we give you the ability to transform any wall into an array of finishes. From stone, marble, suede, concrete, leather, fabric, wood, if you can imagine it we can create it!

WINDOW FRAMES & WINDOW FILM

Once a building has been completed, the window frames are often untouched for the lifespan of the building as they are built into the structure itself. Inevitably, this becomes a huge inconvenience for anyone wanting to truly transform their interior space as, no matter what is done to the rest of the room, the window frame remains the same, with all of the imperfections and annoyances intact. With our Smart Transformations, we provide an easy, cost effective solution with minimal disruption that can truly bring your design together by eliminating the old, and wrapping in the new.

Additionally, choose from our huge selection of various heat reduction films to help reduce the temperature inside your building, or finish off that unique design with our colourful window tint.

FURNITURE & MISCELLANEOUS

With our Creative Interior Film we can wrap all types of furniture, stairs, shelves, panels, facades, changing rooms, toilets, lockers, prayer rooms and more. Contact your Creative Wrap representative for more information.
